

CV Prof. Marco Paulli

Marco Paulli, MD, PhD

born December 25, 1958, Pavia (Italy)

Current Position

Full Professor of Anatomic Pathology (since 2010)

Section of Anatomic Pathology, Department of Molecular Medicine

University of Pavia, Italy

Head of the **Anatomic Pathology Unit** IRCCS San Matteo Hospital Foundation, Pavia

Education

- **MD**, Medicine and Surgery, University of Pavia, 1983
 - **Specialization in Anatomic Pathology**, 1987
 - **PhD in Human Pathology**, 1993
-

Academic and Clinical Appointments

- **2010–present**

Full Professor of Anatomic Pathology, University of Pavia

Head, Anatomic Pathology Unit and Department of Diagnostic Medicine, IRCCS San

Matteo Hospital Foundation

- **2001–2010**

Associate Professor of Anatomic Pathology, Department of Human and Hereditary Pathology, University of Pavia

University Consultant Pathologist, Anatomic Pathology Service, IRCCS Policlinico San Matteo, Pavia

- **1990–2001**

Assistant Physician and Senior Assistant, Anatomic Pathology Service, IRCCS Policlinico San Matteo, Pavia

Senior Hospital Pathologist, Cellular Pathology Unit, Experimental Research Laboratory, Transplantation Area, IRCCS Policlinico San Matteo

Research and Scientific Activity

Author of **over 200 peer-reviewed publications** in international journals, book chapters, and conference proceedings. Frequent invited speaker at national and international meetings.

Main areas of expertise:

- Lymphoproliferative disorders, with special focus on **T-cell malignancies**

- **Cutaneous lymphomas**
 - **CD30+ lymphoproliferative disorders**
 - **Post-transplant lymphoproliferative disorders (PTLD)**
 - **Histiocytic and dendritic cell neoplasms**
 - **Virus-associated lymphomagenesis (EBV, HHV-8, HCV)**
-

International Collaborations and Visiting Activity

Collaborations with and visiting appointments at Departments of Pathology, including:

- Universities of **Bologna, Milan, Verona**
 - **Harvard Medical School (Boston)**
 - Universities of **Heidelberg, Würzburg, Lübeck, Ulm**
 - Institutions in **Germany, The Netherlands (Amsterdam), Switzerland (Zurich, Bellinzona)**
-

Grants and Research Coordination

- **Histiocyte Society of America Grant (1995)**

Research on histiocytic disorders, with particular focus on **Rosai–Dorfman disease**

- **Scientific Coordinator**, Italian Ministry of Health Project (1999):

“CD30+ lymphoproliferative disorders and Epstein–Barr virus infection”

- **Scientific Coordinator**, COFIN 2002 Project:

“Cyclins and CD30+ anaplastic large cell lymphomas: immunomolecular and clinicopathologic correlations”

- **Scientific Coordinator**, COFIN 2004 & 2006 Projects:

Post-transplant tumors and marginal zone B-cell lymphomas

WHO Classification of Tumours

Member of the **Scientific Committee of the WHO Classification of Tumours of Haematopoietic and Lymphoid Tissues**

(Editions: **1997; 2001, 2008, 2017, and current 5th edition**)

Contributor to chapters on:

- **Histiocytic and dendritic cell disorders**

- **Rosai–Dorfman disease**
 - **Cutaneous CD30+ lymphoproliferative disorders**
-

Books

Co-author of:

“Histopathology of Nodal and Extranodal Non-Hodgkin Lymphomas”
(WHO Classification, Third Revised and Updated Edition, 2004)
— one of the reference textbooks in haematopathology.

Professional Memberships

- Italian Society of Surgical Pathology (**SIAPEC**)
- European Association of Haematopathology (**EAHP**)
- Cutaneous Lymphoma Task Force, **EORTC**
- Co-founder, **Italian Cutaneous Lymphoma Group (GILC)**
- Italian Lymphoma Study Group (**GISL**)

- Co-founder, **Italian Haematolymphopathology Group (GIE)**
-

Editorial and Peer-Review Activity

Reviewer for international journals including:

- *International Journal of Surgical Pathology*
 - *Haematologica*
 - *Pathologica*
-

Teaching Activity

Professor of Surgical Pathology for:

- Medical Degree Program
- Schools of Specialization in Surgical Pathology and Pharmacology
- Biotechnology and Laboratory Technician Programs

University of Pavia

Bibliometric Indicators (Scopus)

- **Total citations:** 13,679
- **H-index:** 62

Pavia, 23/01/2026
