

Peter Johnson

Professor of Medical Oncology

brief curriculum vitae

Peter Johnson is the Cancer Research UK Professor of Medical Oncology at the University of Southampton and Director of the Francis Crick Institute Cancer Research Network. He qualified in medicine from the University of Cambridge, trained in Medical Oncology at St Bartholomew's Hospital in London and was Senior Lecturer in the Cancer Centre at Leeds, UK. He was Chief Clinician for Cancer Research UK from 2008-2017.

His research interests are in applied immunology and immunotherapy, lymphoma biology and precision medicine, and clinical trials. He is Chief Investigator for clinical trials ranging from first in human novel antibody therapeutics to international randomised studies.
